## Section 1. Chemical Product and Company Identification

|                                 |                                                             |                             |              |
|---------------------------------|-------------------------------------------------------------|-----------------------------|--------------|
| <b>Product name</b>             | <b>JACAAB-ETHOMEEN S/15</b>                                 |                             |              |
| <b>Material Uses</b>            | : Surfactant.                                               | <b>In Case of Emergency</b> |              |
| <b>Supplier/<br/>Repackager</b> | JACAAB LLC<br>4155 Manchester Avenue<br>St. Louis, MO 63110 | CHEMTREC:                   | 800-424-9300 |
|                                 |                                                             | Information:                | 314-533-4662 |

## Section 2. Composition, Information on Ingredients

| Name                                           | CAS #      | % by Weight |
|------------------------------------------------|------------|-------------|
| Amines, soya alkyl, ethoxylated                | 61791-24-0 | 98-100      |
| Poly(oxy-1,2-ethanediyl), a-hydroxy-w-hydroxy- | 25322-68-3 | 0.001-2     |
| Amines, soya alkyl                             | 61790-18-9 | 0.001-2     |

## Section 3. Hazards Identification

|                                      |                                                                                                                                                                                                                                                                   |
|--------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Physical State</b>                | Liquid.                                                                                                                                                                                                                                                           |
| <b>Color</b>                         | Amber.                                                                                                                                                                                                                                                            |
| <b>Odor</b>                          | Amine like.                                                                                                                                                                                                                                                       |
| <b>Emergency Overview</b>            | DANGER!<br>CAUSES EYE AND SKIN BURNS.<br>MAY BE HARMFUL IF SWALLOWED.<br><br>Do not get in eyes, on skin or on clothing. Do not ingest. Avoid breathing vapor or mist. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling. |
| <b>Possible Carcinogenic Effects</b> | <b>Amines, soya alkyl, ethoxylated:</b> IARC, NTP, OSHA, ACGIH: Not listed.<br><b>Poly(oxy-1,2-ethanediyl), a-hydroxy-w-hydroxy-:</b> IARC, NTP, OSHA, ACGIH: Not listed.<br><b>Amines, soya alkyl:</b> IARC, NTP, OSHA, ACGIH: Not listed.                       |
| <b>Routes of Entry</b>               | Absorbed through skin. Eye contact.                                                                                                                                                                                                                               |

See Toxicological Information (section 11)

## Section 4. First Aid Measures

|                     |                                                                                                                                                                                                                                             |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Eye Contact</b>  | Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Cold water may be used. Get medical attention immediately.                                                |
| <b>Skin Contact</b> | In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately. |
| <b>Inhalation</b>   | If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention.                                                                                              |

Continued on Next Page

|                                                      |                                                                                                                                                                                                                                                                                |
|------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Ingestion</b>                                     | Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If large quantities of this material are swallowed, call a physician immediately. Loosen tight clothing such as a collar, tie, belt or waistband. |
| <b>Medical Conditions Aggravated by Overexposure</b> | Repeated or prolonged contact with spray mist may produce chronic eye irritation and severe skin irritation. Repeated or prolonged exposure to spray mist may produce respiratory tract irritation leading to frequent attacks of bronchial infection.                         |

## Section 5. Fire Fighting Measures

|                                             |                                                                                                         |
|---------------------------------------------|---------------------------------------------------------------------------------------------------------|
| <b>Flammability of the Product</b>          | May be combustible at high temperature.                                                                 |
| <b>Auto-ignition Temperature</b>            | The lowest known value is >150°C (302°F) (Poly(oxy-1,2-ethanediyl), a-hydroxy-w-hydroxy-).              |
| <b>Flash Points</b>                         | Closed cup: >150°C (302°F). (Pensky-Martens.)                                                           |
| <b>Products of Combustion</b>               | These products are carbon oxides (CO, CO <sub>2</sub> ), nitrogen oxides (NO, NO <sub>2</sub> ...).     |
| <b>Fire Fighting Media and Instructions</b> | SMALL FIRE: Use DRY chemical powder.<br>LARGE FIRE: Use water spray, fog or foam. Do not use water jet. |
| <b>Protective Clothing (Fire)</b>           | Be sure to use an approved/certified respirator or equivalent.                                          |

## Section 6. Accidental Release Measures

|                             |                                                                                                                                                                                                                                                                                                                                                                                                           |
|-----------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Small Spill and Leak</b> | Absorb with an inert material and put the spilled material in an appropriate waste disposal. If necessary: <b>Use suitable protective equipment (Section 8).</b>                                                                                                                                                                                                                                          |
| <b>Large Spill and Leak</b> | Stop leak if without risk. Absorb with DRY earth, sand or other non-combustible material. Do not get water inside container. Do not touch spilled material. Use water spray curtain to divert vapor drift. Prevent entry into sewers, basements or confined areas; dike if needed. Eliminate all ignition sources. Call for assistance on disposal. <b>Use suitable protective equipment (Section 8).</b> |

## Section 7. Handling and Storage

|                 |                                                                                                                                                  |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Handling</b> | Do not ingest. Avoid breathing vapors or spray mists. Keep container closed. Use only with adequate ventilation. Wash thoroughly after handling. |
| <b>Storage</b>  | Keep container tightly closed. Keep container in a cool, well-ventilated area.                                                                   |

## Section 8. Exposure Controls, Personal Protection

|                             |                                                                                                                                                                                                                                                         |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Engineering Controls</b> | Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective occupational exposure limits. Ensure that eyewash stations and safety showers are proximal to the work-station location. |
|-----------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

### Personal Protection

|                    |                                                             |
|--------------------|-------------------------------------------------------------|
| <b>Eyes</b>        | Face shield.                                                |
| <b>Body</b>        | Full suit.                                                  |
| <b>Respiratory</b> | Wear appropriate respirator when ventilation is inadequate. |
| <b>Hands</b>       | Gloves.                                                     |
| <b>Feet</b>        | Boots.                                                      |

### Protective Clothing (Pictograms)

**Personal Protection in Case of a Large Spill**

Splash goggles. Full suit. Boots. Gloves. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.

**Ingredient Name****Exposure Limits United States**

Amines, soya alkyl, ethoxylated  
Poly(oxy-1,2-ethanediyl),  
a-hydroxy-w-hydroxy-  
Amines, soya alkyl

Not available.

Not available.

Not available.

**Section 9. Physical and Chemical Properties**

|                                   |                                                                              |
|-----------------------------------|------------------------------------------------------------------------------|
| <b>Physical State</b>             | Liquid.                                                                      |
| <b>Color</b>                      | Amber.                                                                       |
| <b>Odor</b>                       | Amine like.                                                                  |
| <b>Molecular Weight</b>           | Not applicable.                                                              |
| <b>Molecular Formula</b>          | Not applicable.                                                              |
| <b>pH</b>                         | Basic.                                                                       |
| <b>Boiling/Condensation Point</b> | >300°C (572°F)                                                               |
| <b>Melting/Freezing Point</b>     | 6°C (42.8°F)                                                                 |
| <b>Cloud Point</b>                | 8°C                                                                          |
| <b>Pour Point</b>                 | 7°C                                                                          |
| <b>Density</b>                    | 0.952 g/cm <sup>3</sup> (25°C / 77°F)                                        |
| <b>Vapor Pressure</b>             | <0.1 kPa (<1 mmHg) (at 20°C)                                                 |
| <b>Solubility</b>                 | Very slightly soluble in cold water.                                         |
| <b>Dispersion Properties</b>      | Viscosity = 150 mPas @ 20C. (Poly(oxy-1,2-ethanediyl), a-hydroxy-w-hydroxy-) |

**Section 10. Stability and Reactivity**

|                                                |                                        |
|------------------------------------------------|----------------------------------------|
| <b>Stability and Reactivity</b>                | The product is stable.                 |
| <b>Incompatibility with Various Substances</b> | Reactive with oxidizing agents, acids. |
| <b>Hazardous Polymerization</b>                | Will not occur.                        |

**Section 11. Toxicological Information****Toxicity to Animals**

| <b>Ingredient Name or Product name</b>            | <b>Test</b> | <b>Result</b> | <b>Route</b> | <b>Species</b>                            |

| Amines, soya alkyl                                | LD50        | 1950 mg/kg    | Oral         | Rat based on data for: (similar material) |

**Special Remarks on Toxicity to Animals**

**Amines, soya alkyl:** INHALATION = 0.033 mg/L hour(s) Rat based on data for: (similar material)

**Chronic Effects on Humans**

**MUTAGENIC EFFECTS:** Classified None. for human [Amines, soya alkyl]. Non-mutagenic for bacteria and/or yeast. [Amines, soya alkyl].

**Special Remarks on Chronic Effects on Humans**

**Amines, soya alkyl:** Chromosomal (DNA) abnormalities will not occur in CHO mammalian cell assay, the In Vivo Cytogenetics Assay in mice, the CHO/HGPRT mammalian cell assay and the Mouse Lymphoma Assay; based on data for: (similar material)

**Acute Effects Skin**

Corrosive to the skin. Practically non-toxic in contact with skin.

**Acute Effects Eyes**

Corrosive to the eyes.

**Special Remarks on Other Toxic Effects on Humans**

:  
Skin based on data for: (similar material)

**Section 12. Ecological Information****Ecotoxicity**

| Ingredient Name or Product name                                         | Species                                                 | Period   | Result      |

|                                                                         | Minnows based on data for:<br>(similar material) (LC50) | 96 hours | 0.11 mg/l   |
|                                                                         | daphnia based on data for:<br>(similar material) (EC50) | 48 hours | 0.011 mg/l  |
|                                                                         | Algae. based on data for:<br>(similar material) (EC50)  | 96 hours | 0.03 mg/l   |

**Biodegradability and Ecotoxicity Remarks**

**Poly(oxy-1,2-ethanediyl), a-hydroxy-w-hydroxy-:** 5% @ 5 day(s) CBT 38% @ 10 day(s) CBT 70% @ 20 day(s) CBT  
**Amines, soya alkyl:** 55% @ 28 day(s) CBT based on data for: (similar material); 72% @ 42 day(s) CBT based on data for: (similar material)

**Products of Degradation**

These products are carbon oxides (CO, CO<sub>2</sub>) and water, nitrogen oxides (NO, NO<sub>2</sub>...).

**Section 13. Disposal Considerations****Waste Information**

Waste must be disposed of in accordance with federal, state and local environmental control regulations.

**Consult your local or regional authorities.**

**Section 14. Transport Information**

## Section 15. Regulatory Information

### HCS Classification

Corrosive material

### U.S. Federal Regulations

TSCA: All intentionally present components are listed on the TSCA inventory.

DSL: All intentionally present components are listed on the DSL.

CERCLA: Hazardous substances.: No products were found.

SARA 302/304/311/312 extremely hazardous substances: No products were found.

SARA 302/304 emergency planning and notification: No products were found.

SARA 302/304/311/312 hazardous chemicals: ETHOMEEN® SV/15

SARA 311/312 MSDS distribution - chemical inventory - hazard identification: ETHOMEEN® SV/15: Immediate (Acute) Health Hazard

SARA 313 Form R Reporting Requirements  
No products were found.

SARA 313 Supplier Notification  
No products were found.

### State Regulations

No products were found.

California prop. 65: No products were found.

### WHMIS (Canada)

Class E: Corrosive liquid.

CEPA DSL: Amines, soya alkyl, ethoxylated; Poly(oxy-1,2-ethanediyl), a-hydroxy-w-hydroxy-; Amines, soya alkyl

### European Union

#### Component

Amines, soya alkyl, ethoxylated  
Poly(oxy-1,2-ethanediyl),  
a-hydroxy-w-hydroxy-  
Amines, soya alkyl

#### EC Number

Not available.  
Not available.

#### EC Status

Not available.  
Not available.

#### EC Annex

Not available.  
Not available.

263-112-0

Not available.

Not available.

### Other International Lists

Australia (NICNAS): Amines, soya alkyl, ethoxylated; Poly(oxy-1,2-ethanediyl), a-hydroxy-w-hydroxy-; Amines, soya alkyl

Japan (MITI): Poly(oxy-1,2-ethanediyl), a-hydroxy-w-hydroxy-; Amines, soya alkyl

Korea (TCCL): Amines, soya alkyl, ethoxylated; Poly(oxy-1,2-ethanediyl), a-hydroxy-w-hydroxy-; Amines, soya alkyl

Philippines (RA6969): Amines, soya alkyl, ethoxylated; Poly(oxy-1,2-ethanediyl), a-hydroxy-w-hydroxy-

## Section 16. Other Information

### Hazardous Material Information System (U.S.A.)

|                     |   |
